Board

Approved For Release 2005/01/10 : CIA-RDP85B00803R000100160084-5

Scientific Advisory Board (CIA)

DD/R 574-62 22 Sept 1962

DD/R (HSJr. to Exec Dir.)

Said he did not feel it wise to appoint a new board reporting to the DCI above the present de Flores board, which considers itself as the Director's board even tho it had recently only serviced TSD. He was afraid such action would cause violent reactions and another black eye for the Agency with the scientific community.

He also felt the need for an advisory board at this time not urgent from DD/R point of view.

On 22 October, LBK circulated a list of candidates for such an advisory board to concerned Agency areas asking for comments. (ER-62-7705).

On 28 Nov 1962, LBK reported to the DCI a meeting held to discuss formation of a scientific and technical advisory board for the DCI, and asked the DCI for his guidance on (a) what authorities and responsibilities he wished the board to have, and (b) what relationship he wished to board to have with existing Agency boards and panels, particularly those who consider they now work for the DCI?

DD/R wrote **Approved For Release 2005/01/10 : CIA-RDP85B00803R000100160084-5** ~~Initiative~~ plan for DCI approval (DDP 818 62 15 Dec 1962) recommending setting up new board ~~under~~ DD/R to provide secretariat, and that de Flores Board be cancelled. ??
